"IN A BAD WAY"

Many a Norway Reader Will Feel Grateful for This Information

If your back gives out;

Becomes lame, weak or aching;

If urinary troubles set in,

Perhaps your kidneys are "in a bad way."

Doan's Kidney Pills are for weak kidneys. Ask your neighbor!

Local evidence proves their merit.

Miss L. A. MacInnis, in rear Beals Hotel, Norway, says: "My kidneys were in bad shape about three years ago. I suffered terribly from backache and often at night I had to get out of bed and walk the floor, trying to get ease from the pain. My head ached fit to split. My sight blurred and my kidneys were irregular and in my case showed they were at fault. As Doan's Kidney Pills had been used in my home with good results, I decided to get four boxes at Noyes' Drug Store. After I had finished taking them I was cured. I have often spoken to others about what Doan's Kidney Pills did for me and recommend them at every opportunity."

What to Do if You Lay up Your Car

Take or send your battery to the nearest Willard Service Station to be stored until you need it. The additional security and convenience of leaving this to the Service Station far outweighs the moderate expense. Willard Service Stations are responsible to over three-and-a-half million battery owners and they can be trusted to do the job right. Your storage battery is too valuable to be put in the hands of anybody but an expert.

BATTERIES ARE CARED FOR BY TWO METHODS

Dry Storage

Dry Storage is recommended for all batteries with wood insulation which have given a summer's service.

The plates will be disassembled, cured, and carefully stored in a dry place. In the spring, new insulation is put in and the battery charged and put in condition for service.

With the wood-insulated battery this is the only method by which you can be sure that your battery will be in serviceable condition in the spring.

Wet Storage

Wet storage means that your battery will be kept properly filled with pure water and charged at regular intervals to keep the plates in a healthy condition.

This form of storage is recommended only for the Still Better Willard Battery with Threaded Rubber Insulation, or for a wood-insulated battery that has been in service only three or four months.

Dry Storage for 6 volt battery \$ 9.80

Wet Storage for 6 volt battery, \$1.50 first month, 50c for each additional month

Dry Storage for 12 volt battery \$12.00

Wet Storage for 12 volt battery, \$2.00 first month, 50c for each additional month.

Remember Willard Service Stations are responsible to the Willard Company for assisting every car owner to get as much service as possible from his storage battery.

After the entertainment a treat of crackers, cheese, cookies and candy was enjoyed. On account of sickness, the Worthy Chaplain W. K. Hamlin was unable to attend the meeting. Whenever possible Brother Hamlin always attends the meetings and when not present is very much missed. An interesting letter with a photograph of himself enclosed, was received by the Grange from their adopted French child, Robert Granger. The next regular meeting will be on Saturday evening, Dec. 4, and is the regular annual meeting.

The Grange will celebrate Anniversary Day, Saturday, Nov. 27, by an all-day gathering with the usual dinner and entertainment.

WATERFORD

Loton W. Flint
Loton W. Flint passed away at the home of his sister, Mrs. Lizzie Pike, in Waterford, Nov. 6, aged 61 years, 5 months.

Mr. Flint was born and spent nearly all his life in Waterford, engaged in farming and various enterprises. He was at one time agent of Bear Mt. Grange store and managed it for several years. After the death of his mother to whom he gave most tender care, he went to California where he engaged in raising oranges. After nine years of this, finding his health failing, he sold out and returned home to spend his last days among his friends. At first it was hoped the change was of benefit, but soon he began to fail rapidly; and although all that loving care and medical skill could do, was done, it was in vain.

Funeral services were conducted by Rev. Robt. Jones, burial at Bissetown. Valley Spring Lodge K. of P.'s of which he was a member, attended in a body and accompanied the body to the grave. The many flowers received both before and after death spoke of the love and esteem in which he was held.

Don't fail to see our display of Electric Portable Lamps, Flat Irons, Grills, Toasters, Heaters, New Home Electric Sewing Machine, and the famous A. B. C. Washing Machine.

Some electric washers lift and dip the soiled fabrics in a tub of sudsy water—and it is a good method...

Other electric washers rock and toss the soiled fabrics to and fro in sudsy water—and it is a good method.....

The A B C Electric Laundress does both. Rapidly it alternates these good methods—and so it combines their advantages.....

LET THIS BE HIS GIFT TO YOU

This Christmas should end your hardest task, laborious rubbing and wringing of clothes by hand—should end it with the ABC Electric Laundress that merges the leading methods of washing in one. Instead of merely lifting, dipping, or simply rocking, tossing the soiled things in sudsy water, it does both; swiftly and gently all dirt is thus loosened and flushed out of the fabrics. The simple and sturdy, springless mechanism that accomplishes this dual action, without rack or jar, and so quietly that only the churn of cleansing suds is audible, assures long, untroubled service.

ALBANY

Charles H. McAllister
Charles H. McAllister passed away at his home in Albany, Nov. 19th, after a brief illness of one week. He was born in Lovell Feb. 13, 1899. At the age of fourteen he came to Albany where he has since made his home.

DISOBEY THAT IMPULSE

Advertising, especially that seen in the national weeklies and monthlies, is wonderfully attractive and convincing. Rich reward comes to him who can excel in advertising designs and the best ability of the present time is devoted to this work. The reader can scarcely resist the ad. and almost without taking his eye off the page gropes around for pen and paper to write a check and order.

All this is natural and proper and a mutual advantage to the manufacturer, the advertising expert and the reader. The only trouble is that the local dealer in reader's home town may be forgotten.

The impulse is to write to the address given in the advertisement. The better plan is to tear out the ad. take it to the local dealer and let him send the order. There is no injustice about this course. The manufacturer makes the sale which he is entitled to make by reason of his advertising, the customer will get the goods through his local store at a price as low as he would through the mails; the local dealer will get the retail discount.

There is a great deal in habit. If the above suggestions are followed the result will be found so convenient and so satisfactory that any other method of trading will soon be forgotten. There is no duty so plain as that of supporting and patronizing home institutions. To do otherwise is decidedly short-sighted and selfish.—Independent Reporter.

THE WAY TO HAPPINESS

Sometimes I think it is a mistake to try to do much in the way of reform, anyway, but better to just move along in a quiet sort of way, trying to live some nearer right with a kindly feeling towards all, a sun and a pleasant word when possible. Such people seem to brighten up the corners where they are, and though they may not mistrust it, I believe they are the cream of civilization. I have in mind a little lady in a popular store, who always smiles when I trade there with her. It cannot be because she likes me for I don't even know her name, but it does me good to see her smile and I would go out of my way to collect one of these friendly expressions. Evidently she likes everybody, and isn't ashamed of it, either. And she doesn't make much difference to me either for I like it and intend to keep on liking it, even if you should prove it to be the outgrowth of design—a design to fill a clerk's position well.

Anyway, I think a little calculated politeness would benefit many of us and make us more useful citizens and better friends. Is there not too much of this thinking because you have a friend or relative who won't get angry with you, you can use him about as you please anyway? We might take some valuable lessons from the French people and perhaps some of the Italians and other foreign races. How often we read in stories about the amazing and rather exaggerated politeness of the Japanese.

Some of these ways seem foolish to us poor Anglo Saxon people. I say "foolish" because I mean poor in some of the artistic senses, though we may be rich enough in the matter-of-fact senses.

Don't you sometimes get tired of mere facts and wish for fancies for a while? I like to read a good fairy tale as well as ever, and if I get a chance to see a good children's picture on the screen I am delighted. It seems too bad that some think it a duty to be overwhelming serious and bear the weight of the world's great problems. How they feel the burden of it, and seem to think that they must make others appreciate the great dangers that confront them and wake to the need of the times. What the times need, in my opinion, is not great reforms and wonderful changes, but simple good folks with a well of real love in their hearts so refreshing to the heated minds of a world gone mad over new ideas; the gentle hand upon the brow of the fevered patient, the cooling draught, the healing balm, the rest, these are the things that do good in a world of unrest.—Livermore Advertiser.

Christmas Seal

The design for this year's Christmas Seal has already been chosen, and the million of seals which will be on sale during the holiday period are now being circulated.

In this state the Maine Public Health Association will have charge of the campaign, and is already appointing committees and organizing the great drive.

Last season's picture on the seal, the town of Portage in Aroostook county and Kineo in Piscataquis county led the state for the greatest per capita sale in Maine.

The seals which may be bought for so small a sum as one penny each will serve as admirable stickers to Christmas packages at no greater cost than the conventional commercial product, and, in addition to their holiday greeting, have back of them the serious purpose of promoting better health throughout the land and stamping out the great white plague in Maine and her sister state.

"Support the Christmas Seal Sale in your town when the time comes," said Dr. L. D. Bristol, state commissioner of health, "and during December, when the campaign is on, not only buy the seals, but invest in Health Bonds. The money from the seals and bonds goes to support health work here, and health work means longer, healthier lives to the people of Maine."

The Harvest of 50 Years

Your Grandfather and your Father faced ruin. War then had just ended. Consumers then clamored for cheaper food. Prices fell—farm prices most of all. Farmers sought aid in cooperation, in organization. They founded the National Grange—the first national farmers' organization to survive fifty years.

The Grange began the fight for better conditions for farmers; for better marketing; better homes; better schools and better government. Today you have agricultural colleges, experiment stations, extension, rural delivery, parcel post, postal savings and a lot of other things your Grandfather did not have, but needed, following the Civil War.

The Grange is fighting your fight the same today as it did fifty years ago. Another war has ended. Again the farmer is expected to stand the first shrinkage of prices.

You need the Grange and the Grange needs you. You need its experience in cooperation, in checking radical tendencies and in stabilizing the nation. You need its voice at Washington. It needs your prompt support.

For this advertisement we are indebted to THE COUNTRY GENTLE-

MAN, which is even older than the Grange and which reflects the wisdom of years as well as the news of progress in farming. For farmers it believes in active, practical organization such as the Grange affords. It presents a weekly review of the sweeping progress of farm cooperation in organization which is the hope of the future. By subscribing for a full year of 52 issues you receive for only one dollar a farm-news service that will repay you many times over. Our secretary will forward your order.

PAPERS FORTY-FOUR YEARS BACK

When the foundation of the Congregational church was laid, May, 1874, a copper box containing papers, etc., was put in the corner stone. We suppose it was done with appropriate ceremony. This church was burned in the great fire of May 9, 1894, and the copper box was opened and probably a report of what was in it was published at that time. The papers have recently come into our possession.

There are seven of them and a business card of Whitcomb & Oxnard of Norway. The Boston Post of Friday morning, May 5, 1876; Boston Morning Journal of the same date. Two copies of the Oxford Register, April 25 and May 5, 1876. This paper was printed in Norway and edited by Percival J. Parria and lived during and a little after the Tilden campaign. In it is the professional card of 15 lawyers and law firms. Charles F. Whitman is the only one now living. Four doctors are represented and all are now dead. O. M. Cummings' lively stable yet survives, as does Mr. Cummings.

A copy of "The Golden Rule" edited by W. H. H. Murray of Boston was in the package. It was Volume I. and Number 31 of May 3d, 1876. This paper has long ago ceased to exist. Nearly all the papers were furnished by Geo. E. Jones, who was a prominent member of the church.

A copy of the Norway Advertiser of April 23, 1875, was in the collection. Probably furnished by Sam Drake, though his name does not appear on it, and nothing indicates in the paper who was its editor or publisher. The paper is largely given to the "New Reform Work," which was sweeping the country at that time. The Auburn Reform Club had visited Norway and organized a club here and 64 had signed the Iron Club Pledge, and 187 had joined the movement. There is little else but temperance reform in the paper. Frank Bradbury, however, at Frost Corner, had enlarged and improved his store for the "sale of groceries and kindred articles." Of those in the advertising columns C. F. Whitman and O. M. Cummings are the only survivors as in the paper of a year later. The name of H. L. Horne appears in both papers as the general agent of the Massachusetts Mutual Life Insurance Co. of Springfield, Mass., with offices at 95 Exchange Street, Portland.

An Oxford Democrat of May 2, 1876, edited by Geo. H. Watkins of Paris Hill was in the box. No one among its advertisers are now living as far as we can see.

A slip of paper in the box, in the hand writing of Prof. O. M. Metcalf gave the list of teachers and stated there were 390 scholars in the district and 1,250 inhabitants in the village, May 7th, 1876. The teachers were:

Miss Mary Burnham, Upper Primary.
Miss Julia Hall, Lower Primary.
Miss Lucy B. Hall, Intermediate.
Miss Clara B. Leonard, Grammar School.
Miss Sarah A. Leonard, Asst. in High School.
O. M. Metcalf, Prin. High School.

Nate Merrill, describing his own alcoholic concoction: "I put a peck of rye, five pounds of raisins, five pounds of sugar, five cakes of yeast, two gallons of cider, five gallons of boiled water and half a dozen sliced lemons in a tub. In a few days it began to work, the raisins coming to the top, where the lemons had been all the time. Presently a pack of raisins would take after each of these and go round and round, but although I watched hours at a time, the slices of lemon were never caught. The stuff worked six weeks, and then I bottled it. It's so strong I can't drink it without someone present to hold me up. The most elastic-heeled mule steer that ever lived can't kick like that stuff does."

NORWAY MEDICINE COMPANY

NOW is the Time to SAVE and to Invest SAFELY

Deflation has set in and wise people are:

1 SAVING STEADILY. 2 INVESTING SAFELY.

1. The whole world has turned from reckless spending to wise saving.
2. The money thus saved is put into some security which gives promise of paying dividends through all times.

CENTRAL MAINE POWER COMPANY 7 per cent. preferred stock, which sells at \$107.50 to net 6½ per cent., is such a security. It has paid 56 consecutive, uninterrupted dividends; and gives every promise of paying dividends forever, in good times or in better.

"The ability of Electric companies to maintain earnings in times of depression was illustrated in the panic of 1907 when the gross earnings of the so-called 'industrial group' shrunk 50 per cent., railroad receipts decreased 10 per cent., while gas and electric earnings actually gained about 8 per cent.

"The wider uses for electricity, the growing population, increasing without effort the amount of service required, the fact that gas and electricity are so highly useful to so many people and are not, therefore, so largely affected by periods of business depression, give to the securities of these companies a steadiness of value unexcelled by any on the market; while the Public Service Commissions, to a great extent, eliminate the risk of financial loss."

From National Electric Light
Association Committee Report.

If you are satisfied with a net return of 6½ per cent., provided you are morally sure of GETTING IT ALWAYS, then Central Maine stock will appeal to you.

BOLSTER'S MILLS

Mrs. Chester French of North Norway is visiting her mother, Mrs. Fred Bolster. Mildred Hamlin is ill with mumps. The thermometer at E. L. Gay's store registered 14 degrees below, Monday morning. A good start for the "mild" winter that is predicted.

Postmaster Gay wished everyone a happy Thanksgiving on his bulletin board and added in substance that shortly after the mail was distributed on that day he should lock the store door and throw the key down the well.

Thanksgiving day passed quietly with the usual family gatherings for the big feast, which is ever a feature of the occasion.

Jason Scribner and wife went to Yarmouth, Thursday, and returned, Friday, taking Thanksgiving dinner with Mr. and Mrs. Harry Housdon.

Members of the local grange presented a drama at Grange Hall, Thursday evening. A dance followed. Music by Flint's orchestra of Waterford.

Henry Jillson

Henry Jillson of Harrison passed away to the higher life, the 24th inst., after a very brief illness of typhoid pneumonia, aged 49 years. Mr. Jillson was a native of Otisfield, the son of M. V. B. and Viola Jillson.

Twenty-five years ago he was united in marriage to Mabel Small. They resided on a farm about one-half mile from the village of Bolster's Mills. Obsequies were held at the church, the 26th, Rev. Robert Jones of Waterford officiating.

Four fraternal orders of which Mr. Jillson was an esteemed member were represented, the Crooked River Lodge, F. & A. M.; Harrison I. O. O. F.; Elm-vale Chapter, O. E. S.; and Crooked River Grange. He was laid to rest in Stuart cemetery, Harrison, amid a profusion of beautiful flowers, eloquent tokens of the love and esteem in which he was held by relatives and friends. He leaves his wife and three children, Mrs. John Ingersoll of Harrison, Mrs. Harold Pike of Waterford, and Norton, who lives at home, also a sister, Mrs. Annie Wiley and a little grandson, Ronald Ingersoll.

Mr. Jillson was a kind husband, an indulgent parent and a highly respected citizen. He was ever genial and most industrious, a progressive farmer, who employed up-to-date methods and was successful in all his undertakings. At the time of his death he was serving on the board of Selectmen of his town, Worthy Patron of the O. E. S., and very active in grange work. In company with his wife and other members of his family, he attended the recent session of the National Grange at Boston. Not long after his return he was taken suddenly ill and five days later passed away.

"We live in deeds, not in years," Though stricken down in his best years, his life has been productive of great good and his memory will ever be cherished by his bereaved family where his loss is most heavily felt, by the fraternal orders where he was welcomed, and by a host of friends, who will miss his cheery presence.

Laconia Democrat: "The scientists are excited over the capture of a hump-backed whale out in British Columbia, with two well-developed hind legs. The very brief illness of the opinion college professors are of the opinion that the legs are a singular reversion to a primitive type, but to the layman this is proof of the well-established fact that Nature takes care of her creatures under even radically changed conditions and that as the whole world becomes absolutely dry under Prohibition, all of the fish will develop legs and learn to walk instead of swim."

HARRISON

Pitts-Clemons
The marriage of Ida May Clemons of Bartlett, N. H., and Charles Bartley Pitts of Harrison took place at the home of the bride's parents, Mr. and Mrs. Arthur S. Clemons, at Bartlett, on Thanksgiving day, at 2.30 in the afternoon.

The ceremony was performed by Rev. James Blue of North Conway, under an arch of evergreen. The house was prettily decorated with ferns and autumn leaves.

The bride wore white satin and a veil caught with orange blossoms. Mrs. Parker, an aunt of the bride, played the wedding march, and little Frances Parker was flower girl. The couple were attended by Oscar Clemons, a brother of the bride, as best man, and Mrs. Kenneth Smith of Westbrook, a sister as bridesmaid.

Only the bride's family and the groom's parents, Mr. and Mrs. Joseph Pitts, of Harrison, and a few intimate friends of the bride were present.

The happy couple left on the afternoon train for a short honeymoon in Portland and vicinity. They have the best wishes of a host of friends for their future happiness.

After December 18th, they will be at home to their friends in the Sylvester house on Main street recently purchased by them.
